EXECUTIVE SUMMARY

A dedicated Nutrition student at Sriwijaya University with a GPA of 3.76, experienced in community nutrition, clinical practice, and organizational leadership. Actively involved in public health outreach, nutrition education, and patient-centered care through internships at public health centers and hospitals. Demonstrated strong leadership through roles in university organizations and as a coordinator and committee lead in various academic and social programs. Experienced in conducting anthropometric measurements, delivering health education, assisting in patient data management, and supporting government health initiatives. Passionate about nutrition innovation, community empowerment, and health promotion through both direct engagement and digital media. Equipped with strong communication skills, teamwork ability, and a proactive attitude, with additional interests in content creation and social media–based health promotion. Committed to contributing to the advancement of public health and nutrition services through education, innovation, and community-based programs.
